# VW CADDY V *SD SIDE ENTRY*

**With electric side ramp for driver or passenger in wheelchair**

The unique PARAVAN conversion of the VW Caddy V Maxi with side ramp and lowered floor is the ideal choice for drivers or passengers in wheelchairs. The optional air suspension enables a flat entry angle and easy entry via the side ramp right up to behind the steering wheel. Thanks to the lowered floor, the barrier-free interior has plenty of headroom - a docking station (optional) ensures a secure connection between the electric wheelchair and the vehicle. The PARAVAN Caddy V conversion allows the installation of various driving and steering aids from hand-held devices to the complete Space Drive system, which can be used to control the accelerator, brake and steering, brake and steering can be operated via a joystick, for example.

Dimensions based on Volkswagen Caddy V Maxi

Height limit:	1390 mm	Interior height:	max. 1510 mm*	Interior width:	max. 1400 mm
Ramp width:	745 mm	Eye level:	1300 mm	Ramp length:	1260 mm

\* With panoramic roof. NOTE: After conversion, the original manufacturer's dimensions and consumption data may change.
