PARAVAN

PR 30/II

Our all-round talent

Discover the PARAVAN PR 30/II! The advanced wheelchair is modular, equipped with extensive function options and can be modified. The high-performance motor technology supports a maximum user weight of 140 kg. What's more, the PR 30 has a standard lifting function with a lifting height of up to 30 cm. The side supports of the innovative seat design have flexible width and angle adjustment. The side guards of the seat are movable, optionally removable and available in various heights. The bold chassis shape in combination with the lighting concept let the PR 30/II shine in a modern design.

IHRE VORTEILE

Highlight: Additional seat tilt module with stand-up aid:
